RECENT WORK EXPERIENCE

Founder & CTO

Hadenlabs

May 2021 -- Jul 2021 Lima - Peru

- Act as a trusted technical advisor to customers and solve complex Cloud Infrastructure and DevOps challenges.
- Create and deliver best practices recommendations, tutorials, blog articles, sample code, and technical presentations.
- Wrote Alexa Skill.
- Wrote Terraform modules for resources github, aws and discord.
- Wrote Ansible roles covering a diverse environment of machines running different versions of Ubuntu
- Wrote System of IoT working with aws and terraform.
- Test driven releases, Infrastructure as code and Automation.
- Administration and troubleshooting of CI, CD Continuous Integration environment.

DevOps Engineer

Maker Development

May 2021 -- Jul 2021 Lima - Peru

- Implementation of Infrastructure as code with Terragrunt and Terraform.
- Wrote Ansible roles covering a diverse environment of machines running different versions of Ubuntu
- There was a continuous work on improving the costs of infrastructure. This involved resizing machines, auto scaling groups, spot instances, backup policies and several other things.
- Monitoring and alerting setup, modification and troubleshooting and stopping attacks on websites.
- Preparation of documentation, within the code I produce by appropriate commenting, version descriptions via Git and Solution documentation for other engineers to follow.
- Test driven releases, Infrastructure as code and Automation.

February 2018 to Present PunoPeru

- Maintaining the organization.

CONFERENCES

Mean Full-Stack

Compartiendo Conocimiento

April 2015 Huaraz - Peru

- Co-organizer.

LIFE PHILOSOPHY

"If you want to build a ship, dont herd people together to collect wood and dont assign them tasks and work, but rather
teach them to long for the endless immensity of the sea. - Antoine de Saint-Exupéry"

MOST PROUD OF

Courage I had
take projects from scratch and do everything possible to get them forward.

Persistence & Loyalty
I showed despite the hard moments and my willingness.
